Advocate conservation
Purpose of Event: raise awareness and educate

Event

Heal the Earth is already an event and in the past has had speakers, dancers, and a meal; it was a gathering for the earth with an indigenous approach, not consumer driven.
We should take this continuing event and take it “up a level.”

Design of event

Powerpoints; lots of visuals to accompany distinguished speakers
Speakers: educational topics about their work

Topics

How to plant food, power homes from tribal communities.
Alaskan indigenous people: pollution
Arizona tribes: hot weather

Activities and workshops would be developed related to topics. Similar to breakout sessions at the sustainability conference possibly.
